

THE CRESCENT THEATER

100 N. Crescent Drive
Beverly Hills, CA 90210

Parking Instructions

**For screening guests who wish to park in The Crescent Theater parking garage
at 100 N. Crescent Drive, just North of Wilshire Blvd.**

- Drive into the underground garage, proceed to the single "Visitors" Lane, and pull up to the parking kiosk.
- Select the "Ticket" button, and pull out the dispensed parking ticket, which will raise the gate.
- If there is not a "Ticket" button showing on the kiosk, you are in the "Tenants" parking lane, which cannot dispense parking tickets, HOWEVER, you can select the only button showing, which says, "Other Access Options." That will bring up two buttons. Select the lower button which says, "I WANT TO USE MY MOBILE PHONE # AS MY TICKET." Your phone number will now be your "parking ticket."
- Proceed to park on P2 or P3.
- Please do not park in any reserved parking spaces, and do NOT park your car, or EV in an EV charging space. These EV Charging Parking spaces are ONLY for 100 N. Crescent Drive building tenant vehicles, while they are charging. Otherwise you will be liable to be towed.
- Once parked, go to the nearest parking level lobby and take the elevator (elevator button marked "Theater") to the Main Lobby.
- Follow the signs for "Theater Screening," on the Lobby Level, and proceed to the Theater Lobby (which is next to the Main Lobby).
- There should be someone from your hosting team at the check-in table, in the Theater Lobby, to check you in.
- As you check in, please make sure that you receive a validation sticker for your parking ticket.
- Place this sticker on the back (NON-printed or BLANK side) of your parking ticket.
- If you have left your parking ticket in your car, you can carry the Parking Validation sticker on any piece of paper, in order to keep it flat, and therefore, scannable.
- To EXIT, drive up to the exit kiosk / gate.
- First, scan your parking ticket, which brings up the total \$ owed, (by holding the ticket in front of the glass on the kiosk's red laser scanner).
- Second, scan the validation sticker. The Parking Validation sticker scan will raise the gate, so that you may exit.
- If the chain link exit gate heading towards the street is down, just pull your car towards the chain link gate, and it will automatically go up, so that you may exit.

THANK-YOU & ENJOY THE SHOW!
